Refrigeration

Cool innovations for 2009

Perfect temperature and perfect taste are very closely connected.

GE understands the importance of freshness in every way.

Which refrigerator is right for you?
From our luxury GE Monogram line,
to the stylish GE Profile series, to our
timeless GE brand – we have the
appliance to fit your home and lifestyle.
And 2009 is the perfect time to explore
GE's refrigerators and freezers.
Discover the latest leaps in innovation!

GE Appliances

One of the largest manufacturers of major appliances in the world, GE has been introducing advanced appliances to improve people's lives since 1907. We're continuing that legacy today with energy-conscious innovations that deliver optimal performance. All of our appliances are designed to make every kitchen more functional and more beautiful. GE innovation truly makes life easier ... and better.

100 years

At GE, we ask: "Why predict the future when you can create it?" From our earliest days, our company has used the tools of research, combined with inspiration, to create the world of tomorrow. People have come to rely on the GE brand – and we're excited about what our future holds. 100 years of innovation, style, performance and quality ... and we're just getting started.

GE Refrigeration

GE Refrigeration embraces three brands: GE, GE Profile and GE Monogram. And with a major breakthrough in cooling technology in addition to continually refreshing designs. There's never been a more exciting time for our flagship refrigerators.

GE Refrigeration. As cool as it gets.

GE

Timeless & Dependable. And never complacent. As always with GE, we continue to focus on product innovation – striving to develop the products that the most discerning consumers demand.

GE Monogram

American performance with a decidedly bold appearance. GE's Monogram appliances enhance your home with a subtle, yet striking, stainless steel elegance. Creating an atmosphere of inspired entertaining and relaxed living, our Monogram products constantly impress those consumers who simply want the best in refrigeration design and performance.

ZSEP420DWSS

ZSEB420DW

ZCE23NGTESS

ZDWG24ONBS

A century of excellence, with fresh ideas every day ...

Design and Appearance

First of all, choose among free-standing, built-in or custom panel models. Colour can include a textured, high-gloss, metallic or stainless steel look (with the GE CleanSteel option that never shows fingerprints). Bright, easy-to-use color LCD or LED controls provide a high-tech appearance for all your refrigerator functions. Dramatic touches – including bevelled doors, hidden hinges and sculptured stainless handles – complete the design's sophistication.

Convenience and Capacity

Great storage capacity – up to 840 litres – and two case depth options (61 cm or 72 cm) for greater convenience. Enjoy better tasting water with the easy-to-remove GE water filtration unit. A Refreshment Centre door option provides easy external access to foods stored inside the refrigerator door. If you like your beverages cold, the electronic beverage centre accommodates containers of all sizes and chills beverages to the icy cold temperature of 1.1°C.

Authentic American Style Refrigerator

GE's long tradition in building refrigerators has provided us with nearly a century of knowledge and experience. A proud example from our history: in 1927, the Electric Refrigeration Department began producing the 'Monitor Top' hermetically sealed refrigerator. Its all-steel cabinet was a GE innovation. Other pioneering firsts – like an ice dispenser through the door on the side-by-side model – have made GE a household name around the world.

High-tech 'Food Preservation'

How do GE refrigerators preserve food longer and better than other refrigerators? A few key elements: the ClimateKeeper System – with precise digital controls, electronic sensors and a multi-flow air tower – manages temperatures to keep vegetables garden fresh longer. The advanced ClimateKeeper2 technology, with its unique dual-evaporator system, also protects ice from odour transfer. CustomCool technology chills in minutes, thaws in just a few hours, and even allows you to select individual temperature settings for meats, fruits and vegetables.

Quality

GE is committed to providing the highest standard of quality in the industry. How? First of all, by using high-quality materials exclusively. Our stainless models are made of high-grade stainless steel, and most exterior surfaces that have painted finishes are made of galvanized steel to improve corrosion resistance. Before being placed in the refrigerator, GE's door gaskets must pass a 1 million cycle life qualification test. In addition, the inner doors are made of ABS plastic, which greatly improves food hygiene and impact resistance in comparison to HIPS plastic (the material used in standard refrigerators). Most of all, the quality of GE's refrigerators comes from the expertise and the tradition of excellence that GE has developed diligently over the past century.

Imagination at work

GE is imagination at work. GE people worldwide are dedicated to turning imaginative ideas into leading products and services. For over a century, we've been focusing on the future and constantly reinventing ourselves. Innovative in the way we work, we are especially adept at managing change to create momentum and drive. At GE, we believe that 'What we imagine ... we can make happen'.

Bottom-Freezer

PFSE5NJJWDSS

Top-Freezer

GTE22JBT

Specialty

FUG17DSRWH

Choose the arrangement of refrigeration and freezer compartments to best suit your needs: side-by-side, or with the freezer above or below. If you're looking for a high-quality, small-size appliance, we've designed a variety of compact models for you.

The broad range of GE side-by-sides demonstrates GE's leadership in refrigeration technology. The stylish exterior makes a dramatic statement, and the multi-level interior makes versatile use of storage space. In addition, both refrigerator and freezer compartments offer a range of cooling capabilities for the ultimate in flexibility and performance.*

Side-by-Side

PJE25YGXFSV

ClimateKeeper2 dual evaporator system

The ClimateKeeper2 dual evaporator system carefully manages temperature with higher humidity in the fresh food compartment to keep foods garden fresh longer. Cycles air in the refrigeration and freezer compartments separately, preventing the transfer of fresh food odours to the frozen foods. Reduces defrost cycles to help keep frozen foods at their best.

Conventional Refrigerator:

Day 5: Fruit pulp is losing moisture and rinds are shrivelling.

ClimateKeeper2:

Day 5: Still fresh and juicy, slices stay bright and moist.

Inverter compressor

The variable speed compressor makes our refrigerators more efficient – decreasing energy consumption and damping sound.

Metallic-look series with CleanSteel feature

Available in shades of aluminium, stainless steel and graphite, the doors shine like stainless steel with a laminated surface – but they're actually made of electro-galvanised steel bonded with zinc (an innovation GE introduced in 2007). So, unlike stainless steel, this surface holds magnets. And thanks to the magical innovation of the CleanSteel feature, it doesn't fingerprint and is very easy to keep clean.

The beauty of stainless steel - but without the fingerprints and with the ability to hold magnets.

The magic touch ... of the CleanSteel feature.

External electronic control

This handy feature enables you to control all the functions of the refrigerator – including the temperature settings – without opening the doors. Saves energy and is so easy to use!

PSE25VGXCSS

PCE23TGXFSS

PJE25YGXFSV

'A' energy

Most of the new GE refrigerators are classified 'A' energy. So you can have cutting-edge technology and advanced options for preserving foods, while saving on your energy bill.

1 TurboCool feature

Quickly cools back down to the set temperature when the door has been open for an extended time or when hot foods have been placed inside.

2 GE Water filtration

Removes impurities, providing your family with fresh-tasting, filtered water all day long. The new 'slim' version optimises use of the refrigerator space.

NEW
in 2009

3 Slide'n Store full-extension freezer baskets

Deeper design maximises storage space and flexibility and ensures easy access to frozen foods.

4 Slide-out, spillproof glass shelves

These adjustable shelves make clean-up easier by containing spills within the shelf surface.

5 FrostGuard Technology

Monitors door openings to calculate when it's necessary to defrost. Also activates a pre-chill function to lower the freezer temperature prior to the defrost cycle.

6 Electronic beverage centre

Chills beverages icy cold, and accommodates containers of all sizes.

7 QuickSpace shelf

Creates extra storage space for tall items such as flowers, special desserts, and bottles.

8 Full-extension bin with CustomCool technology

Chills in minutes, thaws in hours and helps keep foods fresher, longer. For added convenience, it opens fully to allow easy access.

9 Integrated Ice system

Designed to supply you with plenty of ice, while giving you more room to store your favourite fresh foods.

10 AutoEnergy Saver

Reduces operation cycles to save energy and expense.

11 UltraFlow¹⁰⁰

Quench your thirst by dispensing 100 ounces (ca. 3 litres) of water in 1 minute.

NEW
in 2009

12 PreciseFill technology

Just select the desired measurement and let PreciseFill do the work.

Bottom-Freezers provide easy access and convenience. The most frequently used items are within easy reach, sparing your back and knees, making the bottom-freezer a most ergonomic choice! Full-width fresh food storage, combined with the ClimateKeeper system to keep temperatures consistent and foods fresh.*

Bottom-Freezer

PFSE5NJWDSS

PDSE5NBWDSS

Design and Appearance

- > ClearLook storage: allows easy viewing of refrigerator contents, while giving the interior a brighter, more open appearance.
- > BrightSpace interior lighting: the interior glows with this exceptional lighting, making foods easy to see.
- > 2 or 3 doors option, 61cm or 72cm case depth, built-in or free-standing.
- > High-gloss look.

Food preservation

- > Electronic digital controls with actual temperature display.
- > Electronic sensors monitor temperatures constantly for accuracy and consistency.
- > Multi-flow air tower: delivers cold air throughout the interior for even cooling.
- > TurboCool feature: quickly cools the refrigerator after frequent door openings or when hot items are placed inside.

Convenience

- > Energy saver: activating the energy saver feature puts the refrigerator in high efficiency mode to save energy.
- > Secure-close door system: securely pulls the door closed automatically, even after you release the handle. Door alarm and child lock.
- > External water dispenser with GE SLIM water filter: provides chilled, filtered water and displays the refrigerator's internal temperature. The refrigerator temperature can be controlled without even opening the door.

- > Complete line-up, with or without dispenser. 2 case depths available (61 cm or 72 cm) for greater storage capacity.
- > 3 colours.* 2 or 3 doors. Built-in or free-standing installation. Also available with a factory-installed trim kit to accommodate custom panels that match the kitchen cabinets.
- > Great storage capacity: from 635 to 760 litres.
- > Stylish appearance.
- > A-energy with AutoEnergy saver.
- > ClimateKeeper system combines digital controls, electronic sensors and a multi-flow air system to maintain a constant fresh food climate.

* Ask your local distributor for customised colour options.

- 1 Adjustable temperature deli drawer**
Provides a temperature-controlled, easy access environment for fresh foods.

- 2 Slide-out, spill-proof glass shelves**
Provide storage flexibility, ease of use and quick clean-up – benefits every consumer appreciates.

- 3 Electronic touch controls with digital temperature readout**
Enables better temperature management and more accurate temperature settings.

- 4 ShelfSaver beverage rack**
Provides convenient storage and easy access for canned drinks, egg cartons, wine bottles, even casserole dishes.

- 5 Adjustable ClearLook gallon door bins**
Hold large containers with style and ease.

- 6 Adjustable humidity crispers**
Provide the ideal storage environment, keeping fruits and vegetables crisp and fresh.

- 7 FrostGuard technology**
Reduces freezer burn and retains the quality and flavour of frozen foods. Saves energy.

- 8 Multi-level Slide n' Store freezer drawers**
In the freezer compartment there are 3 full extension drawers for easy access to all frozen food items. Stainless steel trim.

- 9 GE slim water filter**
Our slim water filter will remove chlorine, lead, cysts, mercury, and many other contaminants. By reducing contaminants and odors, we have cleaner and better tasting water and ice. **NEW in 2009**

- 10 ClimateKeeper system**
This technology combines digital controls, electronic sensors and a multi-flow air system to maintain a constant fresh food climate.

- 11 Integrated ice-maker**
Ice is easy to access directly from the ice bin.

- 12 'A' Energy**
You can have cutting-edge technology and advanced options for preserving foods, while saving on your energy bill.

** Note that not all features are available on all models. Please see the product specifications for details.*

Dual-level lighting system, FrostGuard technology, adjustable humidity crispers, ShelfSaver beverage racks – Top-Freezers have so many impressive features! Those models are also available in stainless steel.

Top-Freezer

Design and Appearance

- > Rounded doors and low-profile hinges accent an appealing, contemporary design.
- > Up-front dual-level lighting provides greater visibility.
- > Freezer dome light distributes light evenly in the freezer.
- > ClearLook storage: allows easy viewing of refrigerator contents, while giving the interior a brighter, more open appearance.

Food preservation

- > Electronic digital controls display current temperature, eliminating guesswork in setting refrigerator temperatures.
- > Electronic sensors constantly monitor temperatures for accuracy and consistency.
- > Multi-flow air tower: delivers cold air throughout the interior for even cooling.
- > FrostGuard technology reduces freezer burn and saves energy.

Convenience

- > Electronic ice-maker ready (IM4A): easy-to-add ice maker accessory provides cubed ice.
- > Fruit and vegetable crispers with adjustable humidity: provide the ideal storage environment, keeping fruits and vegetables crisp and fresh.
- > Adjustable slide-out, spill-proof shelves: provide storage flexibility, ease of use and quick clean-up – benefits every consumer appreciates.
- > Locking tilt-out freezer door bin: allows maximum storage while also allowing crowded foods to be removed easily.

PTE255BTSS

For consumers looking for small-size appliances, GE offers a variety of compact fridges from 2 to 5 cu ft storage capacity. In addition, upright freezers until 20 cu ft complete the vast line-up of GE refrigeration. While these “Specialty” products may not have all the high-end features found in our full-size products, they do excel where it really counts: quality design and performance.

Upright Freezers

- > Available with 17 or 20 cu ft storage capacity.
- > Upfront controls.
- > Adjustable shelves.
- > Reversible doors.

Compact Fridges

- > Available in 2, 3 or 5 cu ft storage capacity.
- > Available in white enamelled or black enamelled, with stainless steel doors.

“Specialty” Upright Freezer Compact Fridge

FUG17DSRWH

Refrigeration technology is just one of GE's innovative strengths. We also design leading appliances for cooking, laundry and air conditioning. Ask your local distributor for the other brochures in this series.

Cooking

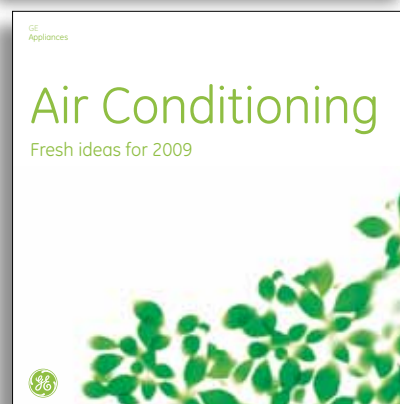

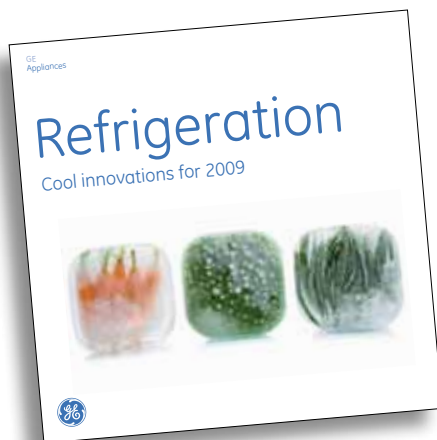

Choose from electric or microwave ovens, cooktops, hoods and ranges. More style, versatility, performance and electronic control. Isn't it time to enjoy more of what you want? GE cooking appliances have it all.

Laundry

A wide choice of washers, dryers and washer-dryer combos. All with great capacity, durability and ease-of-use. Plus, just like every GE product, the highest standards of quality, performance and reliability.

Air Conditioning

From room air conditioners to dehumidifiers, GE offers a wide range of models and styles for your living comfort – all of them energy-efficient and full of advanced climate-control features.

The product sheet at the back of this brochure contains the specifications for the refrigeration appliances.

How to choose your refrigerator?

Choose the type that best fits your needs and fulfils your desires: a refrigerator with freezer on top, on bottom, or side-by-side.

Choose the model by considering the capacity and the specific features. The model number indicates the capacity in cubic feet (1 cubic foot = about 28 litres). Side-by-side and bottom-freezer models are available in two case depths: 61 cm or 72 cm. Note that the “case depth” is the depth of the unit without the doors (i.e., the part of the unit that should be built into the kitchen cabinetry).*

Choose the colour:

WW for white, BB for black, SS for stainless steel doors & handles, etc.**

** Note that not all features are available on all models.
Please see the drawings in the technical specifications for details.*

*** Ask your local distributor for additional colour options.*

GE imagination at work

GE / GE Profile Side-by-Side Refrigerator
Feature Gallery

Contoured doors and sculptured handles
Create a dramatic effect and complement your desire for a sophisticated look.

CleanSteel feature
Thanks to the magical innovation of the CleanSteel feature, it doesn't fingerprint and is very easy to keep clean.

Color LCD display NEW in 2009
LCD controls are easy-to-see and easy-to-use for all of your refrigerator functions. Choose among 8 different colors and personalise the display of your own refrigerator!

LightTouch! Tall dispenser
Accommodates tall glassware and dispenses water and ice at the touch of a fingertip.

PreciseFill technology NEW in 2009
Just select the desired measurement and let PreciseFill do the work.

UltraFlow100 NEW in 2009
Quench your thirst by dispensing 100 ounces (ca. 3 litres) of water in 1 minute.

TurboCool setting
Cools the refrigerator after frequent door openings.

QuickIce setting
Makes ice up to 50% faster than normal settings - ideal for entertaining.

External electronic control NEW in 2009
You can control all the functions of the refrigerator - including the temperature settings - without opening the doors. Saves energy and is so easy to use! New glass-touch and tactile version available.

FrostGuard technology
Protects frozen items from freezer burn by monitoring freezer door openings and defrosting only when needed.

ClimateKeeper2 system
Dual evaporator system creates two separate climates—one for the fresh food compartment and a separate one for the freezer—to help maintain freshness throughout the refrigerator.

'A' Energy
You can have cutting-edge technology and advanced options for preserving foods, while saving on your energy bill.

Adjustable ClearLook door bins
Transparent fronts make finding your favorite door items quick and easy.

Slide-out, spillproof glass shelves
Raised edges and slide-out shelves keep small spills from becoming big messes.

Integrated Ice system
Designed to give you more room to store your favourite fresh foods.

Slide'n Store full-extension freezer baskets
Deeper design maximises storage space and flexibility and ensures easy access to frozen foods.

In-the-door beverage rack
Conveniently stores beverage cans out of the way.

QuickSpace shelf
Taller containers are a snap with a quick slide of the retractable shelf.

Beverage Center
Right temperature, right now. Now your favorite beverages are icy cold and easy to find in the front of the refrigerator door.

GE water filtration NEW in 2009
Removing impurities adds a fresher taste to your family's water.

CustomCool ExpressChill
Enjoy cold drinks in less time. The CustomCool ExpressChill setting chills cans, bottles and 2-litres in minutes, not hours, so your favourite beverages will be at just the right temperature.

CustomCool ExpressThaw
Be ready to cook when you get home from work. The CustomCool ExpressThaw setting thaws meats and poultry in hours, not days, so you'll spend less time planning for meals.

CustomCool SelecTemp
Keeps meats, fruits and vegetables cool and crisp. The CustomCool SelecTemp setting creates the ideal environment for maintaining freshness by controlling temperature and airflow.

Full-extension CustomCool bin
The full-extension CustomCool bin opens wide to make loading and unloading quick and easy.

GE Profile Bottom-Freezer
Feature Gallery

Adjustable temperature deli drawer
Provides a temperature-controlled, easy access environment for fresh foods.

Adjustable ClearLook gallon door bins
Hold large containers with style and ease.

GE slim water filter
Our slim water filter will remove chlorine, lead, cysts, mercury, and many other contaminants. By reducing contaminants and odors, we have cleaner and better tasting water and ice.

Slide-out, spill-proof glass shelves
Provide storage flexibility, ease of use and quick clean-up – benefits every consumer appreciates.

Adjustable humidity crispers
Provide the ideal storage environment, keeping fruits and vegetables crisp and fresh.

ClimateKeeper system
This technology combines digital controls, electronic sensors and a multi-flow air system to maintain a constant fresh food climate.

Electronic touch controls with digital temperature readout
Enables better temperature management and more accurate temperature settings.

FrostGuard technology
Reduces freezer burn and retains the quality and flavour of frozen foods. Saves energy.

Integrated ice-maker
Ice is easy to access directly from the ice bin.

ShelfSaver beverage rack
Provides convenient storage and easy access for canned drinks, egg cartons, wine bottles, even casserole dishes.

Multi-level Slide n' Store freezer drawers
In the freezer compartment there are 3 full extension drawers for easy access to all frozen food items. Stainless steel trim.

'A' Energy
You can have cutting-edge technology and advanced options for preserving foods, while saving on your energy bill.

PFCE1NWDSS

* Note that not all features are available on all models. Please see the product specifications for details.

Top-Freezer
Feature Gallery

Adjustable temperature deli drawer
Provides a convenient, temperaturecontrolled place for meats, cheeses and other favourite foods.

Slide-out, spill-proof glass shelves
Simplify loading, unloading and cleaning.

Electronic touch controls with digital temperature readout
Precise and easy to use. Take the guesswork out of selecting accurate temperatures.

ShelfSaver beverage rack
Provides convenient storage for a 12-pack, two egg cartons or a 23 cm x 33 cm casserole dish.

Adjustable ClearLook gallon door bins
Hold large containers with style and ease.

Adjustable humidity crispers
Provide the ideal storage environment for fruits and vegetables.

FrostGuard technology
Defrosts only when needed, reducing freezer burn.

Tilt-out locking freezer door bin
For convenient loading and unloading, and easy access to items.

* Note that not all features are available on all models. Please see the product specifications for details.
